

MADE FOR TRADE

Designed for global supply chains

PSA BDP

Made for every part of your journey

WHO WE ARE

Supply chain and cargo solutions provider backed by a leading port group

From cargo to connections, PSA BDP is your proven partner for smart, sustainable, and resilient supply chains. With an expansive product and solutions portfolio backed by the strength of PSA's ecosystem of deepsea, rail and inland terminals, warehouses and flow centers, we deliver flexible "asset-optimal" cargo solutions to meet the needs of your supply chain from end-to-end. Our agility is your competitive advantage, as we connect trade and empower networks, globally and locally.

VISION

**To be a
champion of
innovative and
sustainable
cargo solutions**

MISSION

**We deliver service excellence
and relentlessly pursue ways to
earn trust and simplify trade while
unlocking value for our customers
and stakeholders. We provide our
people with rewarding careers and
an environment to thrive where the
unique diversity of our global culture
is valued and celebrated.**

Digital products designed to optimize supply chain performance and efficiency

PSA BDP offers unparalleled value creation driven by innovative solutions and service excellence. Our technology solutions make it easy to access essential information required to make quick, informed decisions to increase savings, and drive bottom-line value to your company.

Smart Suite® is our collection of intuitive applications designed to provide shippers with predictive lead time analytics for shipment planning, real-time tracking, and end-to-end visibility of the entire documentation flow.

Featuring world-class security, data monitoring, and redundancy to ensure the confidentiality, integrity, and availability of your information assets. Smart® applications adhere to the ISO 27001 standard.

“HARMAN cannot afford to have problems with their shipments. The impact of a production shutdown for a lifestyle manufacturer would be huge. When you have to deal with more than 50 vendors in different countries, transparency and communications are key.”

-Michelle Chan,
HARMAN Account Manager

THE PSA BDP DIFFERENCE

A one-of-a-kind experience

MADE FOR
Movement

Offering flexible “asset-optimal” solutions to keep supply chains in motion.
