

SUPPLY CHAIN ORCHESTRATION

Lead Logistics

Orchestrating Your Supply Chain

A myriad of supply chain challenges

Complex, long supply chains

Access to expertise

Fragmentation of transport providers and lack of industry standards

Constant supply chain disruptions

Convoluted processes

Let PSA BDP be the Lead Logistics Partner to help orchestrate your supply chain. Our team will book and manage your shipments while providing you with actionable insights to optimize your supply chain.

We deliver a complete solution that encompasses planning, shipment coordination, documentation, freight audit, analytics and proactive exceptions management.

DID YOU KNOW?

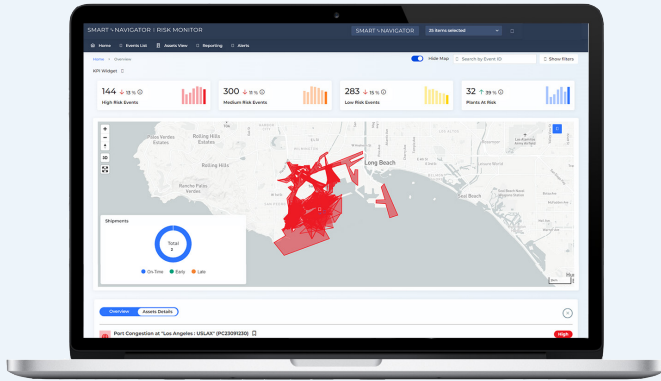

PSA BDP proudly serves 8 of the top 10 chemical manufacturers as their trusted Lead Logistics Partner.

Orchestrating Your Supply Chain

Besides coordinating the international transport booking operations with your nominated providers, we also help you to manage all your logistics – whether they are booked by PSA BDP or other 3PL providers. With PSA BDP, get total visibility of your shipments, predictive arrivals and risk events on a single platform.

Through Smart Suite, we empower you with actionable insights to make informed decisions swiftly. This enables you to optimize operations, minimize disruptions, and enhance overall supply chain performance.
